

Train the Trainer Live Webinar

3 external CPD points

Introduction

Using case studies and role play this interactive webinar aims to provide you with the skills, competencies and techniques to enable you to teach and facilitate training to help medical professionals achieve their potential. The programme refers to the AoME framework for trainers, and reflection can be used as supporting information for your revalidation portfolio.

Course structure

- **2.5 hour webinar**

Webinar objectives

- To establish a positive learning environment
- To provide challenge, interest, engagement and stimulation in their own training
- To understand the necessary skills and techniques to improve learning – presentations, case studies, role plays
- To explain different learning styles
