

Workplace Based Assessment Live Webinar

3 external CPD points

Introduction

This webinar provides a thorough grounding in how to supervise and assess trainees using a variety of assessment tools and is particularly focused on practising (and improving) vital skills such as providing feedback. The course will identify the following AoME Standards required by Educational and Clinical Supervisors (1,3,4,5,7)

Course structure

- **2.5 hour webinar**

Webinar objectives

- Understand the roles and competencies required within the Medical Education Faculty and the proposed requirements to meet the AoME competencies for trainers, in preparation for revalidation (1,2,7)
- Understand and apply in-work assessment tools for both Foundation and Specialist trainees (4)
- Understand the key changes of the Foundation Programme and the importance of Structured Learning Events (SLEs) (2)
- Be able to demonstrate competence in providing educational feedback in a range of different clinical scenarios (3,4)
- Effectively provide feedback, encouraging participation through provision of equality of opportunity and acknowledgement of diversity (2)
