

Applying to the Specialist Register Using CESR Webinar

up to **15** external CPD points

Introduction

This live interactive webinar provides an introduction to the CESR process and takes delegates through the entire application process – from which evidence to include and how to present this clearly, common pitfalls and how to overcome them to preparing an effective CV. You will work in groups to assess the key requirements of a consultant within the modern National Health Service and there will also be advice and guidance on how you can gain your consultant post.

Course structure

- **2.5 hour webinar**
- **Optional e-learning modules:** Appraisal, Understanding Clinical Leadership, Working with Others, Gaining Your Consultant Post, Root Cause Analysis, Complaint Management, Action Planning and Clinical Audit, Serious Incident Investigation and Never Events

Webinar objectives

- In line with specific CPD strategy for SAS doctors, explain to participants what the application process in support of the Certificate of Eligibility for Specialist Registration (CESR) is and how it works
- Offer guidance and support on the key points to cover when making an application, including the documentation, FAQs and appeals
- In particular, discuss what makes an effective CV and explain how 360° appraisal fits into the process
